01 Executive summary

What differs, what needs follow-up, what is missing

Two of three managers carry open flags

BOTTOM LINE

Three advisers were compared for the global macro mandate: Ridgeview reports $12.40B regulatory AUM, Harbor $4.85B and Northfield $1.92B S1 S2 S3. None reports an Item 11 disciplinary disclosure S1 S2 S3. Harbor has 2 of 9 private funds with no administrator named and Northfield reports custody through a related person, so both carry medium flags S2 S3. Weighted 13F overlap between Ridgeview and Harbor is 18.4% for the 2026-06-30 period S6; Northfield is not in the diligence catalog, so it has no 13F, consistency or events evidence. This is an evidence comparison, not a ranking.

MANAGERS COMPARED	MANAGERS WITH FLAGS	13F OVERLAP PAIRS	ITEM 11 DISCLOSURES
3	2	1 of 3	0
Named by user S1	Medium only S2 S3	Same-period filings S6	All three advisers [S1–S3] S4

SHORTLIST AT A GLANCE

MANAGER	CRD	RAUM	FLAGS	NEXT STEP
Ridgeview Advisors	999901	$12.40B	No flags	Run ODD report S1
Harbor Example Capital	999902	$4.85B	Medium	Reconcile DDQ S2
Northfield Example Capital	999903	$1.92B	Medium	Run ODD report S3

Order follows the user's list. Flags are evidence for follow-up, not a verdict on the manager.

Key judgment — Open flags

Observation: Two of the three managers carry open flags; only Northfield is clean S1. Why it matters: Flags must be resolved or accepted before either flagged manager advances. Uncertainty: Flags reflect filings to 2026-10-01 and may lag recent changes. What would change the view: A filing or diligence response that closes the medium-severity flags.

Key judgment — Field size

Observation: Three managers are compared on the same mandate S2. Why it matters: A three-way field keeps a credible alternative if one candidate drops out. Uncertainty: Strategy fit beyond the filings is not assessed here. What would change the view: A fourth candidate or a mandate change.

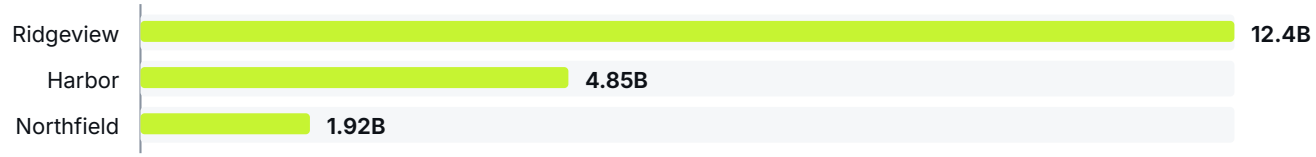

Key judgment — Disclosures

Observation: None of the three managers reports an Item 11 disclosure S3. Why it matters: There is no disciplinary history to weigh between candidates. Uncertainty: Item 11 covers reportable events only. What would change the view: A new disclosure in an amended Form ADV.

Latest 13F period	2026-06-30	2026-06-30	n/a

Auditor, administrator and custodian counts are private funds with a provider named in Schedule D 7.B.1, out of funds returned. 'Yes' responses count affirmative Form ADV answers, not disciplinary events.

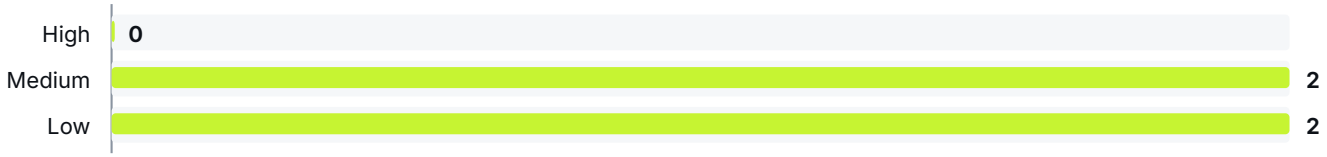

Analysis — Scale differs without deciding mandate fit

Observation: Ridgeview reports $12.40B RAUM and 41 clients, Harbor $4.85B and 28, and Northfield $1.92B and 12; all three report zero Item 11 disclosures S1 S2 S3. Why it matters: Absolute filed scale changes operating complexity, not mandate quality. Uncertainty: Form ADV facts are adviser-reported. What would change the view: A corrected filing or user criterion requiring a named operating-scale threshold.

03 Operational flags

Evidence that needs follow-up, per manager

OPEN FLAGS BY SEVERITY

Ridgeview Advisors: no flags identified

Checked: Form ADV profile, Schedule D service providers, 13F, ADV–13F consistency, open findings S1 S4 S8 S9. Events not published S10.

MEDIUM **Harbor Example Capital: 2 of 9 private funds name no administrator**

Schedule D 7.B.1 rows for Harbor Example Opportunities Fund and Harbor Example Credit Fund leave the administrator blank S2. Ask who prepares investor statements.

LOW **Harbor Example Capital: PCAOB registry check unavailable**

Auditor Example Audit LLP is named on all funds; Gradient's PCAOB registry evidence was unavailable (advisory) S2.

MEDIUM

Northfield Example Capital: custody through a related person

Item 9 reports a related person with custody of client assets; independent verification answer not found in the returned data S3.

LOW

Northfield Example Capital: not in diligence catalog

No catalog firm ID, so 13F, consistency, events and findings are not available S3.

Analysis — Evidence gaps differ

Observation: Harbor lacks complete provider evidence, while Northfield also lacks catalog identity S2 S3. Why it matters: The gaps require different diligence paths before selection. Uncertainty: The public sample omits some corroborating provider detail. What would change the view: Updated governed records resolving either named evidence gap.

04 Form 13F overlap

Same-period, complete Form 13F filings only

WEIGHTED 13F OVERLAP MATRIX

	RIDGEVIEW	HARBOR
RIDGEVIEW	100.0	18.4
HARBOR	18.4	100.0

Northfield is excluded because its catalog CIK is missing S6.

WEIGHTED OVERLAP (PERIOD 2026-06-30)

	RIDGEVIEW	HARBOR	NORTHFIELD
Ridgeview		18.4% S6	n/a — cik_missing
Harbor	18.4% S6		n/a — cik_missing
Northfield	n/a — cik_missing	n/a — cik_missing	

Ridgeview–Harbor: 31 common positions S6.

TOP SHARED POSITIONS

ISSUER	CUSIP	RIDGEVIEW	HARBOR
Example Index ETF	000000AA1	$412.5M	$138.2M
Example Semiconductor Corp	000000BB2	$96.1M	$41.7M
Example Software Inc	000000CC3	$71.8M	$22.9M

How to read this

Overlap uses same-period, complete SEC Form 13F reported long positions. It excludes shorts, cash, many non-US securities and confidential-treatment holdings, and does not imply manager intent S6. 13F is firm-level and lagged; it is not the mandate's portfolio.

Analysis — Reported overlap is limited

Observation: Ridgeview and Harbor have 18.4% weighted overlap across 31 positions S6. Why it matters: Their reported long books are not interchangeable. Uncertainty: Northfield lacks usable same-period Form 13F identity coverage. What would change the view: Complete same-period filings showing materially different weighted overlap.

05 ADV–13F consistency and events

Identity, recency and scope flags — not a diligence conclusion

Firm and fund event timeline

Not available — event publication is not ready for Ridgeview or Harbor; Northfield is not in the diligence catalog S10 S3. Absence is not evidence of no events.

MANAGER	ADV RAUM	13F TOTAL	13F / RAUM	13F AGE	IDENTITY	FLAGS
Ridgeview	$12.40B	$3.21B	25.9% S8	96 days	Unconfirmed	13F subset of RAUM S8
Harbor	$4.85B	$1.07B	22.1% S11	96 days	Unconfirmed	13F subset of RAUM S11
Northfield	$1.92B	n/a	n/a	n/a	n/a	Not in catalog

Analysis — Identity and coverage gaps govern interpretation

Observation: Ridgeview and Harbor have usable consistency checks, while Northfield is outside the catalog S8 S11 S3. Why it matters: Evidence depth materially differs across the three managers. Uncertainty: Northfield event coverage and catalog identity remain unavailable. What would change the view: Catalog resolution plus published Northfield event records.
