GradientCIO

PLATFORM READINESS

Northstar Investment Office

Access, licensed capabilities and data coverage

ORGANIZATION
Northstar Investment Office

REVIEWED
2026-10-04

01 Summary

Can this organization use the Gradient skills today?

Ready to use, with some skills limited

BOTTOM LINE

GradientCIO is connected and healthy for organization Gradient S1 S2. Nineteen of twenty-one skills are ready; the macro briefing has one unavailable view, and the IC memo needs the Portfolio and Strategy Lab modules for live portfolio data S2. 13 of 14 connection checks passed; macro regime state returned Not available (HTTP 500) S3.

SKILLS READY	PARTLY AVAILABLE	NOT LICENSED	CHECKS PASSED
19	2	2 modules	13 / 14
of 21	Macro brief · IC memo	Portfolio · Strategy Lab	1 unavailable check

What to do next

Nothing is blocking day-to-day use. To write IC memos from live portfolio data, license the Portfolio and Strategy Lab modules; until then the memo can be written from holdings you supply.

02 Skills you can use

Status of each skill for this organization

READY

SKILL	PRODUCES	NOTE
gradient-odd-report	ODD report	Event feed not published; reports disclose the gap
gradient-odd-ddq-reconcile	DDQ reconciliation	One subject per call
gradient-odd-manager-monitor	Weekly digest	1 roster fund monitored
gradient-gips-* (5)	GIPS reviews	Works from supplied documents
gradient-setup	Readiness report	Current check

PARTLY AVAILABLE

SKILL	PRODUCES	NOTE
gradient-decision-ic-memo	IC memo	Portfolio core: Not licensed; Strategy Lab supplement: Not licensed (optional). Use supplied holdings

03 Access and data

Organization, modules and data domains

ORGANIZATION

Name	**Gradient** S1
Role	**Admin** S1

events	get_firm_fund_events	**Pass**	2026-10-04	Publication not ready (known)

CHECK	TOOL	RESULT	AS OF	NOTE
conditions	get_macro_conditions	Pass	2026-10-02	
gradient_signal	get_macro_signals	Pass	2026-10-02	GRIP degraded: 1 stale input
regime_state	get_macro_signals	Not available		HTTP 500 MCP_TOOL_EXECUTION_FAILED; retried once
cma_baseline	get_capital_market_assumptions	Pass	2026-10-04	Risk-free fresh; receipt validation unavailable
watchlist	get_research_watchlist_changes	Pass	2026-10-04	No items selected

No new failures

All probes completed without a new failure. The CMA baseline returns a fresh risk-free rate.

05 Try next

Prompts that work for this organization today

01 Run an ODD report on Ridgeview Global Macro Fund II.
Your one roster fund; a new Form ADV was filed after its last review.

02 Give me this week's manager monitoring digest, and schedule it for Mondays.
Keeps the roster under watch without manual checks.

03 Build the macro briefing deck for Thursday's committee.
Uses The Read, rates, Gradient signal, calendar and CMAs.

A Appendix — Sources and methods

Based on 13 of 14 evidence areas.

Illustrative, Gradient Maintained — demo data, not the client's holdings or managers. All organizations, portfolios, managers and results in this public example are illustrative.

Readiness reflects entitlement, OAuth scope, backend health and data readiness reported by GradientCIO at the time of the check. Tool availability does not guarantee that data is published for every subject.
