RECOMMENDATION

We recommend retaining the 12.0% marketable-alternatives allocation while shifting 2.0 percentage points from equity long/short to macro and relative-value roles S3 S4. Committee action requested: approve the target structure and staged manager review, subject to verified redemption terms and completed diligence S3 S7 S8.

MARKETABLE-ALTERNATIVES WEIGHT	ACTIVE WEIGHT	RELATIVE RETURN	LIQUID SHARE
12.0%	0.0pp	+0.6pp	8.0%
Policy target 12.0% S3	Total-fund target S3	Trailing 1Y versus benchmark S5	Monthly or better as % NAV S3

Recommendation and action requested

We recommend a 2.0 percentage-point strategy shift within the existing 12.0% allocation. Committee action requested: approve the target mix and authorize manager review, with no funding until redemption and diligence conditions are complete S3 S4 S7 S8.

DECISION SUMMARY

DECISION ELEMENT	PROPOSED ACTION	EVIDENCE	STATUS
Total allocation	Hold at 12.0%	S3	Compliant
Equity long/short	Reduce from 5.0% to 3.0%	S3 S4	Proposed
Macro and relative value	Increase from 4.0% to 6.0%	S3 S4	Proposed

Conditions and limits

Confirm notice periods, gates and side-pocket terms for each affected fund and complete ODD before implementation S7 S8.

Key judgment — headline signal

Observation: The fictional TEST report carries a Liquidity terms require confirmation signal S1. Why it matters: The signal frames the review. Uncertainty: Evidence coverage is bounded. What would change the view: New governed evidence that changes the signal.

Key judgment — primary measure

Observation: Marketable-alternatives weight is 12.0% in the TEST evidence S2. Why it matters: This measure anchors the executive view. Uncertainty: The fixture is deliberately compact. What would change the view: A refreshed source with a materially different value.

Key judgment — monitoring priority

Observation: Liquid share is 8.0% in the TEST evidence S3. Why it matters: It identifies a monitoring priority. Uncertainty: Supporting detail is limited. What would change the view: Corroborated evidence that resolves or reverses the item.

04 Target Strategy and Manager Structure

A broader strategy mix lowers single-role concentration

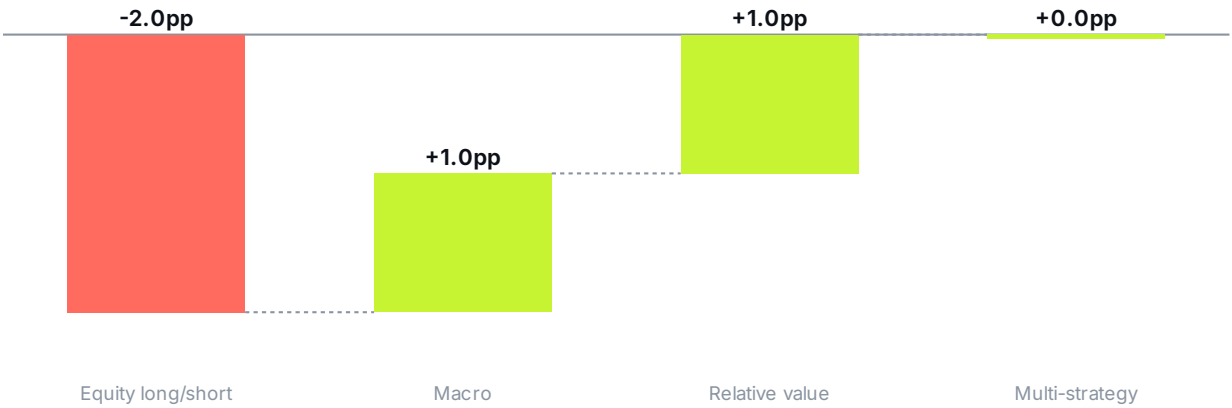

CURRENT WEIGHT VERSUS POLICY RANGE

CURRENT AND TARGET STRATEGY MIX

TARGET ALLOCATION CHANGES (PERCENTAGE POINTS)

CURRENT VERSUS TARGET

STRATEGY / ROLE	CURRENT	TARGET	CHANGE	RANGE / CONSTRAINT	RATIONALE
Equity long/short	5.0%	3.0%	-2.0pp	2.0%–6.0%	Reduce largest strategy concentration S3 S4
Macro	2.5%	3.5%	+1.0pp	2.0%–5.0%	Increase diversifying role subject to diligence S7 S8
Relative value	1.5%	2.5%	+1.0pp	1.0%–4.0%	Broaden strategy mix subject to terms S7 S8
Multi-strategy	3.0%	3.0%	0.0pp	2.0%–4.0%	Maintain current role S3 S4

Analysis — Why this target

Observation: The target reallocates 2.0 percentage points from equity long/short to macro and relative value S3 S4. Why it matters: The largest strategy concentration declines. Uncertainty: CMA consensus, macro regime, manager findings and terms remain incomplete S7 S8. What would change the view: Completed context that does not support the new roles S7 S8.

The target is a committee proposal and is not a saved portfolio change S3 S8.

06 Factor, Currency and Concentration Evidence

Returned exposures show where diversification remains incomplete

MODEL-IMPLIED FACTOR EXPOSURES (TEST)

GOVERNED CONCENTRATION

AXIS	OBSERVED	LIMIT	STATUS	SOURCE
Largest manager	4.0% of NAV	4.0%	Watch	S3 S4
Largest strategy	5.0% of NAV	6.0%	Compliant	S3 S4
13F equity subset	Not available — manager identifiers incomplete	Not assessed	Not Assessed	S7

Analysis — Manager limit is binding

Observation: The largest manager is at the 4.0% policy limit S3 S4. Why it matters: New funding should not increase that concentration. Uncertainty: Model-implied factors and incomplete look-through do not reveal the full hedge-fund book S7. What would change the view: Complete exposure evidence showing lower aggregate concentration S4 S7.

Look-through limitation

Any Form 13F evidence is lagged, long-only US-listed equity, excludes shorts, derivatives, cash and non-US listings, and is not a complete hedge-fund exposure view S7.

07 Forward Return and Risk

Governed assumptions frame tradeoffs rather than forecasts

MARKETABLE-ALTERNATIVES FORWARD ASSUMPTIONS (TEST)

CLASS	EXPECTED RETURN	EXPECTED VOLATILITY
Hedge funds	6.1%	8.9%
Absolute return	5.5%	7.1%

Analysis — Assumptions show tradeoff

Observation: Hedge funds carry higher expected return and volatility than absolute return in the selected assumptions S6. Why it matters: The target mix should preserve role diversification rather than maximize one measure. Uncertainty: These are class assumptions, not manager forecasts. What would change the view: A refreshed governed context with materially different relative measures S6.

These figures are assumptions under the selected context, not forecasts or guarantees S6.

08 Liquidity, Redemption and Operational Terms

LIQUIDITY COMPOSITION (TEST)

LIQUIDITY PROFILE

BUCKET / TERM	% NAV	AMOUNT	REQUIREMENT	STATUS
Monthly or better	8.0%	$80.0M	At least 7.0%	**Compliant**
Quarterly	4.0%	$40.0M	Monitor	**Available**

REDEMPTION EVIDENCE

Example Alpha Partners (TEST)	Quarterly	60 days	Not available — terms not returned	S8
Example Macro Fund (TEST)	Monthly	30 days	No gate reported	S8
Example Relative Value Fund (TEST)	Monthly	45 days	Not available — terms not returned	S8
Example Multi-Strategy Fund (TEST)	Quarterly	90 days	Not available — terms not returned	S8

Redemption frequency and notice are user-document evidence; missing gates, side pockets and leverage remain open items S8.

09 Manager Lineup and Diligence

CURRENT AND PROPOSED ROLES

MANAGER	STRATEGY / ROLE	EXPOSURE	DILIGENCE STATUS	PROPOSED ACTION	NEXT STEP
Example Alpha Partners (TEST)	Equity long/short	$50.0M	Current; 1 Medium finding S7	Redeem $20.0M	Confirm notice and gate
Example Macro Fund (TEST)	Macro	$25.0M	Current S7	Add $10.0M	Refresh ODD
Proposed Relative Value Manager (TEST)	Relative value	Not funded	Not assessed S7	Consider $10.0M	Run comparison and ODD

Diligence condition

No proposed manager may be funded until comparison, operational diligence and performance-integrity review are complete S7.
