01 Summary

OVERALL ASSESSMENT

Satisfactory with follow-ups

REQUIREMENTS EVIDENCED · 4/5

BOTTOM LINE

Total-fund return and benchmark evidence is present, while benchmark-change and policy documentation remain incomplete S1 S2 S3.

MET	PARTIALLY MET	NOT MET	NOT FOUND
2	1	1	1
Return basis and policy benchmark	Benchmark-change disclosure	Valuation policy evidence	Error-correction policy

EVIDENCE COVERAGE

Board performance report	**Available**	Total-fund evidence through 2026-06-30 S1
Investment policy	**Available**	Policy benchmark approved for 2026 S2
Custodian package	**Degraded**	Performance schedules supplied; control policies absent S3

> SYNTHETIC TEST handoff for committee-memo regression coverage. This paste-ready authoritative markdown is based only on fictional policy, board-report and custodian evidence.

- **Overall assessment:** Satisfactory with follow-ups. Total-fund return and policy-benchmark evidence are present; benchmark lineage and policy support remain incomplete S1 S2 S3.

Key judgment — total-fund basis is explicit

The board report states that total-fund returns are net of external manager fees S1. This explicit basis supports interpretation of the reported results, although it does not establish how every underlying expense is treated or whether the same convention applies outside the reviewed report.

Key judgment — policy benchmark is identified

The investment policy names the benchmark used in the board report S1, S2. Matching the two records supports benchmark identity, but the evidence does not by itself establish uninterrupted methodology, approval history, or comparability across every reported period.

Key judgment — benchmark lineage is incomplete

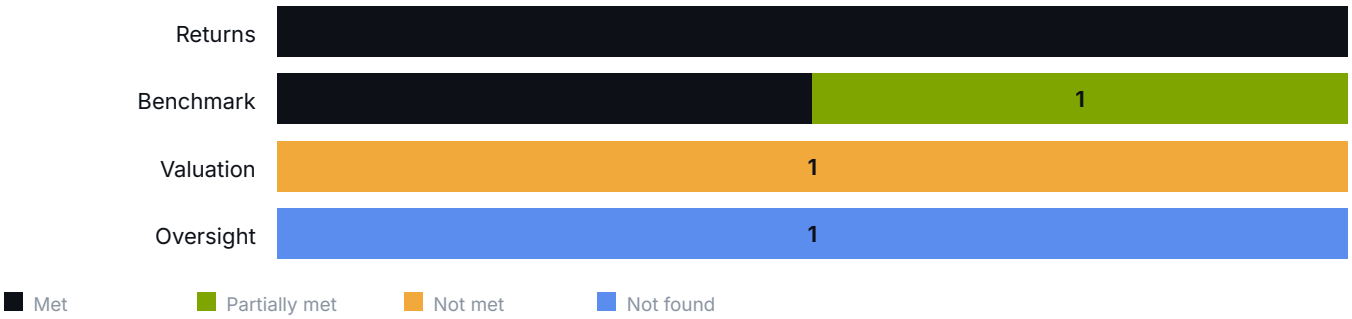

The benchmark change is disclosed without an effective date or approval rationale S1, S2. That omission prevents period-level lineage testing, so comparability remains bounded until dated approval records identify when the change took effect and why it was adopted.

Key judgment — control policies are missing

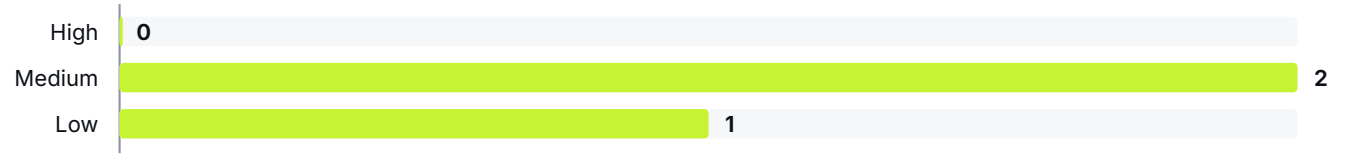

The custodian package does not include valuation or error-correction policies S3. Without those two control records, the review cannot assess how pricing exceptions are resolved or how material reporting errors are identified, approved, corrected and communicated.

02 Findings

CHECKLIST STATUS BY AREA

FINDINGS BY SEVERITY

MEDIUM **Benchmark date absent**

The report omits the benchmark-change effective date S1 S2.

MEDIUM **Valuation policy absent**

The reviewed package does not include the valuation policy S3.

LOW **Error policy not found**

No error-correction policy was supplied S2 S3.

The benchmark-change disclosure omits its effective date, the valuation policy was not supplied, and no error-correction policy was found in the reviewed package S1 S2 S3.

Analysis — benchmark comparability is bounded

Observation: One benchmark change lacks an effective date S1, S2. **Why it matters:** Period comparability requires dated benchmark lineage. **Uncertainty:** Approval records supporting the change were not supplied. **What would change the view:** Follow-up request 1 producing dated approval records.

Analysis — oversight controls are not evidenced

Observation: Two control policies, valuation and error correction, are absent S3. **Why it matters:** Reporting oversight cannot be assessed without both policies. **Uncertainty:** The reviewed custodian package may omit separately maintained policies. **What would change the view:** Follow-up request 2 producing approved policy records.

03 Oversight summary

OVERSIGHT EVIDENCE BY REPORTING AREA

EVIDENCED	INCOMPLETE	NOT SUPPLIED	
TOTAL-FUND RETURN BASIS	1	0	0
POLICY BENCHMARK	1	0	0
BENCHMARK CHANGE	0	1	0

EVIDENCED	INCOMPLETE	NOT SUPPLIED	
VALUATION CONTROLS	0	0	1
ERROR CORRECTION	0	0	1

Board-facing evidence status from the fictional review record S1 S2 S3.

The board report presents total-fund returns net of external manager fees and identifies the approved policy benchmark S1 S2. Oversight evidence is incomplete for the benchmark change because its effective date and rationale are absent. The custodian package also does not include the valuation or error-correction policies needed to understand the reporting control framework S3.

04 Follow-up requests

01 **Provide the benchmark-change effective date, approval record and rationale.**
Closes the 22.C.9 lineage gap S1 S2.

02 **Provide the current valuation and error-correction policies.**
Closes the control-evidence gaps S3.

1. Provide the benchmark-change effective date, approval record and rationale (22.C.9) S1 S2.
2. Provide the current valuation and error-correction policies (21.A.6; 22.C.20) S3.

A Appendix — Findings checklist

AREA	REQUIREMENT	PROVISION	STATUS	EVIDENCE	FINDING / FOLLOW-UP
Returns	Total-fund return basis	Asset Owner 22.A.1	Met	Board report S1	—
Benchmark	Policy benchmark identified	Asset Owner 22.C.8	Met	Policy S2	—
Benchmark	Change disclosure	Asset Owner 22.C.9	Partially Met	Board report S1	Effective date absent
Valuation	Valuation policy availability	Asset Owner 21.A.6	Not Met	Custodian package S3	Policy not supplied
Oversight	Error-correction policy	Asset Owner 22.C.20	Not Found	—	Request
