BOTTOM LINE

Of 20 checkable DDQ answers, **13 are consistent** with Form ADV and Schedule D, **4 are contradicted** and **3 need review** S1 S2. The DDQ also overstates headcount by 105 people and private funds by 3, and understates the fund minimum by $1.67M; these gaps are returned by the governed reconciliation S1. The source DDQ is preserved by digest S3.

Key judgment — monitoring priority

Observation: Not checkable is 0 in the TEST evidence S3. Why it matters: This result determines which item receives priority in the next monitoring cycle. Uncertainty: Supporting coverage may omit later filings or corroborating detail. What would change the view: A new filing or report that resolves the item or changes it by 1%.
